

§ 50.22 Environmental management and monitoring.

An Environmental Management and Monitoring Program shall be established prior to project approval when it is deemed necessary by the HUD approving official. The program shall be part of the approval document and must:

(a) Be concurred in by the Field Environmental Clearance Officer (FECO) (in the absence of a FECO, by the Program Environmental Clearance Officer in Headquarters) and any cooperating agencies;

(b) Contain specific standards, safeguards and commitments to be completed during project implementation;

(c) Identify the staff who will be responsible for the post-approval inspection; and

(d) Specify the time periods for conducting the evaluation and monitoring the applicant's compliance with the project agreements.

§ 50.23 Public participation.

HUD shall inform the affected public about NEPA-related hearings, public meetings, and the availability of environmental documents (see 40 CFR 1506.6(b)) in accordance with this section. Where project actions result in a FONSI, the FONSI will be available in the project file. The local HUD field office may be contacted by persons who wish to review the FONSI. In all cases, HUD shall mail notices to those who have requested them. Additional efforts for involving the public in specific notice or compliance requirements shall be made in accord with the implementing procedures of the laws and authorities cited in § 50.4. Notices pertaining to an EIS or an amendment to an EIS or a FONSI subject to § 50.34 shall be given to the public in accordance with paragraphs (a) through (d) of this section.

(a) A NOI/EIS shall be forwarded to the AS/CPD to the attention of the Departmental Environmental Clearance Officer for publication in the FEDERAL REGISTER.

(b) Notices will be bilingual if the affected public includes a significant portion of non-English speaking persons and will identify a date when the official public involvement element of the

proposed action is to be completed and HUD internal processing is to continue.

(c) All required notices shall be published in an appropriate local printed news medium, and sent to individuals and groups known to be interested in the proposed action.

(d) All notices shall inform the public where additional information may be obtained.

§ 50.24 HUD review of another agency's EIS.

Where another agency's EIS is referred to the HUD Field Office in whose jurisdiction the project is located, the Field Environmental Clearance Officer shall determine whether HUD has an interest in the EIS and, if so, will review and comment. Any EIS received from another Federal agency requesting comment on legislative proposals, regulations, or other policy documents shall be sent to the AS/CPD for comment, and the AS/CPD shall provide the General Counsel the opportunity for comment.

Subpart E—Environmental Assessments and Related Reviews**§ 50.31 The EA.**

(a) Form HUD-4128—Environmental Assessment and Compliance Findings for the Related Laws—is the EA form to be used for analysis and documentation by HUD for projects and activities under subpart E. The Departmental Environmental Clearance Officer shall approve the issuance of equivalent formats, if Form HUD-4128 does not meet specific program needs.

(b) The program representative shall obtain interdisciplinary assistance from professional experts and other HUD staff as needed. Additional information may also be requested of the sponsor/applicant. HUD is responsible for assessing and documenting the extent of the environmental impact.

§ 50.32 Responsibility for environmental processing.

The program staff in the HUD office responsible for processing the project application or recommending a policy action is responsible for conducting the compliance finding, EA, or EIS. The collection of data and studies as part of

§ 50.33

the information contained in the environmental review may be done by an applicant or the applicant's contractor. The HUD program staff may use any information supplied by the applicant or contractor, provided HUD independently evaluates the information, will be responsible for its accuracy, supplements the information, if necessary, to conform to the requirements of this part, and prepares the environmental finding. Assessments for projects over 200 lots/dwelling units or beds shall be sent to the Field Environmental Clearance Officer (FECO) or, in the absence of a FECO, to the Program Environmental Clearance Officer in Headquarters for review and comment.

§ 50.33 Action resulting from the assessment.

(a) A proposal may be accepted without modifications if the EA indicates that the proposal will not significantly (see 40 CFR 1508.27) affect the quality of the human environment and a FONSI is prepared.

(b) A proposal may be accepted with modifications provided that:

(1) Changes have been made that would reduce adverse environmental impact to acceptable and insignificant levels; and

(2) An Environmental Management and Monitoring Program is developed in accordance with § 50.22 when it is deemed necessary by the HUD approving official.

(c) A proposal should be rejected if significant and unavoidable adverse environmental impacts would still exist after modifications have been made to the proposal and an EIS is not prepared.

(d) A proposal (if not rejected) shall require an EIS if the EA indicates that significant environmental impacts would result.

§ 50.34 Time delays for exceptional circumstances.

(a) Under the circumstances described in this section, the FONSI must be made available for public review for 30 calendar days before a final decision is made whether to prepare an EIS and before the HUD action is taken. The circumstances are:

24 CFR Subtitle A (4–1–11 Edition)

(1) When the proposed action is, or is closely similar to, one which normally requires the preparation of an EIS pursuant to § 50.42(b) but it is determined, as a result of an EA or in the course of preparation of a draft EIS, that the proposed action will not have a significant impact on the human environment; or

(2) When the nature of the proposed action is without precedent and does not appear to require more than an assessment.

(b) In such cases, the FONSI must be concurred in by the AS/CPD and the Program Environmental Clearance Officer. Notice of the availability of the FONSI shall be given to the public in accordance with paragraphs (a) through (d) of § 50.23.

§ 50.35 Use of prior environmental assessments.

When other Federal, State, or local agencies have prepared an EA or other environmental analysis for a proposed HUD project, these documents should be requested and used to the extent possible. HUD must, however, conduct the environmental analysis and prepare the EA and be responsible for the required environmental finding.

§ 50.36 Updating of environmental reviews.

The environmental review must be re-evaluated and updated when the basis for the original environmental or compliance findings is affected by a major change requiring HUD approval in the nature, magnitude or extent of a project and the project is not yet complete. A change only in the amount of financing or mortgage insurance involved does not normally require the environmental review to be re-evaluated or updated.

Subpart F—Environmental Impact Statements

§ 50.41 EIS policy.

EIS's will be prepared and considered in program determinations pursuant to the general environmental policy stated in § 50.3 and 40 CFR 1505.2 (b) and (c).
